

16 months ago I purchased equipment to allow me to listen to XM satellite radio. I was amazed at the high quality of their broadcasts and the wide range of programming. I'm delighted to hear that local news and traffic will be available on my satellite radio.

I strongly protest of the NAB attempt to restrict programming of local news and traffic.

I urge you to reject the NAB's petition 04-160.

Respectfully,

LAWRENCE L. BUGGIE
